

Reno ♦ Sacramento ♦ Point Richmond ♦ Lake Tahoe

*NCE is conducting a search for a*

## **Lead Civil Engineer**

NCE is seeking to expand its civil engineering group in our Sacramento Office. If you enjoy a challenging career in civil engineering, predominately on public works related projects, this is a great opportunity. NCE continues to grow and has built a reputation for high levels of customer service and quality design products. In the last 20 years NCE has earned the confidence of Cities and Counties throughout California and Nevada through work in public works projects such as:

**City of Sacramento Docks Projects**  
**County of Sacramento Department of Waste Management and Recycling Kiefer Entrance Design**  
**City of Rocklin Pavement Design**  
**Kiefer Landfill Water Supply Design**  
**Placer County Erosion Control Projects**  
**City of Sacramento Pavement Design**  
**City of Richmond Via Verdi Culvert Replacement**  
**City of Sacramento K Street Mall Improvement Project**

The selected candidate will be responsible for developing business while maintaining client relationships, leading and/or managing large and/or technically complex projects or programs, and mentoring and managing staff. The selected candidate will have a proven track record of successfully developing business, writing, winning public works projects, managing projects, and demonstrating strong client skills.

NCE offers an opportunity to work with some of the most motivated professionals in the industry.

NCE has been named by ZweigWhite and Stagnito Media as one of the 2009 Best Civil Engineering Firms to Work For, placing 25th among the civil engineering companies who participated.

NCE offers an excellent benefits package
